

KHALED ELFAHL

Full-Stack Developer · React & Laravel

Zagazig, Sharqia, Egypt · 01018674258 · Khaledelfahl56@gmail.com
[Portfolio](#) · [GitHub Profile](#) · [LinkedIn](#)

PROFILE

Computer Science student at Zagazig University and full-stack developer with a strong focus on React interfaces and Laravel/PHP backends. Builds useful, responsive, and reliable web experiences, from custom admin dashboards to full e-commerce platforms. Currently deepening frontend expertise while maintaining hands-on backend skills across native PHP/MySQL and Laravel.

EDUCATION

B.Sc. in Computer Science and Information · [Zagazig University — Ongoing](#)

- Building a strong foundation in software thinking, frontend engineering, and problem-solving through practical development work.
- Coursework includes data structures, algorithms (searching and sorting), and object-oriented programming in C++.

TRAINING

Front-End Development Training · [HumaVolve — Work Simulation](#)

- Completed a structured front-end development program focused on professional workflow, industry expectations, and practical exposure to how modern frontend teams operate.
- Learned frontend development file/folder structure, project workflow, and how to plan and structure a UI project.
- Improved understanding of user-centered design and clean implementation.

Projects, Git & GitHub Training · [Almdrasa Platform](#)

- Completed a practical training path focused on React-based project work, version control, and collaborative GitHub workflows.
- Built practical experience with real project workflows, using Git and GitHub for structured, team-ready development.

PROJECTS

Giftos — E-Commerce Platform · [Laravel 12](#), [Blade](#), [Bootstrap](#), [MySQL](#)

- Full-stack e-commerce platform: storefront filtering/search, session-based cart, Cash on Delivery checkout, role-based access, admin-approved reviews, and an admin dashboard with full CRUD (categories, products, orders, users, reviews) and Chart.js analytics.

[View Source Code →](#)

Content Management System · [Laravel](#)

- Laravel CMS for categories, products, and users with bilingual (English/Arabic) localization, role-based administration, and protected admin workflows.

[View Source Code →](#)

Real-Time Chat Application · [Laravel](#), [Blade](#), [Broadcasting](#)

- Real-time messaging app with typing indicators, online status, message management, and dark mode.

[View Source Code →](#)

Project Native — Gym & Training Website · [PHP](#), [MySQL](#), [PDO](#), [Bootstrap 5](#)

- Gym/training website with a responsive landing page, registration and login with password hashing and auto-login, role-based access control, and an admin dashboard with CRUD management for users, posts, categories, and comments.

[View Source Code →](#)

Ecommerce Storefront · [React](#), [Vite](#), [Zustand](#), [React Bootstrap](#), [React Router](#)

- Fully featured storefront with product browsing, cart/wishlist (Zustand), deals, blog, and support pages; multilingual support via react-i18next.

[View Source Code →](#)

Car Rental Website · [React](#), [Vite](#), [Tailwind CSS](#)

- Responsive car-rental experience with a clear booking flow and vehicle browsing.

[View Source Code →](#)

Kanban Board · [React](#), [Vite](#), [Tailwind CSS](#)

- Drag-and-drop board with columns, subtasks, and progress tracking.

[View Source Code →](#)

SKILLS

Frontend HTML, CSS, JavaScript, React, Vite, Tailwind CSS, React Bootstrap, React Router, Zustand, react-i18next

Backend Laravel, Blade, native PHP, PDO, RESTful APIs

Database MySQL — relational design, normalization, joins, transactions

Tools Git, GitHub, Vite, Chart.js, XAMPP, Postman

Practices Responsive design, clean UI implementation, role-based access control, CRUD architecture

ACHIEVEMENTS

- Built a multi-project full-stack portfolio featuring responsive React interfaces and Laravel backend projects.
- Independently designed and implemented a consistent visual design system (dark purple/indigo theme) across multiple personal projects.
